

Original miniature
DarkHeaven #2371
"Nord Kegbreaker"

Step #1 Cut the
Warhammer ends
off.

Cut here & here.

Step #2 Drill a hole
in the top of
the Warhammer.

Drill here.

Finished drill hole.

Top view

Step #4 Add green
stuff for the handle
and fill out the top
where the cuts
were made and
let it cure.

- Rivet Tip -
Use a mechanical
pencil tip while the
putty is still fresh
for this effect.

Take the Mace from
the Weapons Pack
#2189 in the
DarkHeaven line.

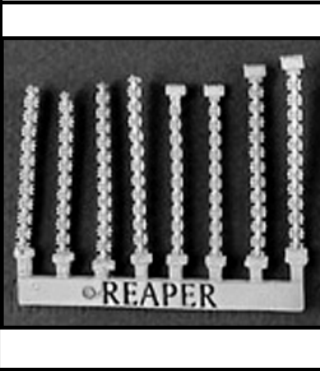

Step #5 Cut the top of
the Mace head off
it's handle and drill a
hole where the handle
was connected.

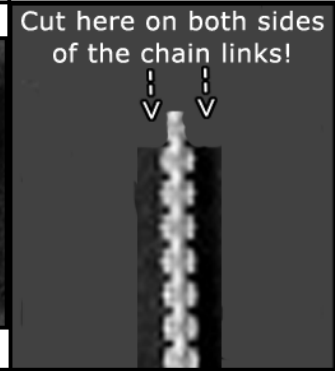

Cut
here!
--> Drill
here!
v

Next take a chain
from DarkHeaven's
Spiked Chain Weapon
Pack #3076.

Step #6 Cut the sides
of the chain links to
create a pin on both
ends to fit in the
holes you drilled.

Step #7 Bend one
end of the chain
so it can hang off
the top of the
Morning Star.

Step #8 Glue the
the Spiked Ball to
the other end of
the chain.

Final conversion
of the new "Nord
Kegbreaker" ready
to be painted.

Reaper DarkHeaven
models used for this
conversion were
2189, 2371, and 3076.
